OFFICE OF PETITIONS

In re Application of :
Voellmy : DECISION ON PETITION
Application No. 10/046,420 :
Filed: October 26, 2001 :
For: MOLECULAR REGULATORY :
CIRCUITS TO ACHIEVE SUSTAINED :
ACTIVATION OF GENES OF INTEREST :
BY A SINGLE STRESS :

The above-identified application has been forwarded to the Office of Petitions for consideration of the petition to withdraw the holding of abandonment under 37 CFR 1.181 filed April 11, 2006.

The petition under 37 CFR 1.181 to withdraw the holding of abandonment is hereby **DISMISSED**.

Any request for reconsideration of this decision must be submitted within **TWO (2) MONTHS** from mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.181." This is not a final agency decision.

This application became abandoned December 3, 2005 for failure to timely submit a proper reply to the Notice of Allowance (Notice) mailed September 2, 2005. The Notice set a three month shortened statutory period of time for reply. Notice of Abandonment was mailed February 10, 2006

Petitioner argues that the Notice was "sent to Miami by mistake." Petitioner further argues that all "earlier Office Actions in this case were mailed correctly to my Swiss address." Petitioner further argues that the Registry of patent attorneys "has been showing correctly my Swiss address since 2004."

In the absence of any irregularity in the mailing of the Notice, there is a strong presumption that the Notice was properly mailed to practitioner at the address of record. Office records indicate the Notice was properly mailed to the correspondence address of record at the time of mailing. Accordingly, there was no irregularity in mailing the Notice on the part of the United States

Patent and Trademark Office. Moreover, a review of the application file does not indicate that a change of correspondence address was submitted prior to the mailing of the Notice.

Moreover, petitioner is advised that where an application becomes abandoned as a consequence of a change of correspondence address (the Office action being mailed to the old, uncorrected address and failing to reach the applicant in sufficient time to permit a timely reply), petitioner is required to establish that due care was taken to adhere to the requirement for prompt notification in each concerned application of the change of address (See, MPEP 601.03), and must include an adequate showing that a timely notification of the change of address was filed in the application concerned, and in a manner reasonably calculated to call attention to the fact that it was a notification of a change of address. See, MPEP 711.03(c).

As to petitioner's argument that previous correspondence directed to this application were mailed to a "Swiss" address, petitioner is advised that all correspondence mailed in this case has been mailed to the correspondence address designated in the declaration submitted upon filing which is in fact the address indicated on the first page of the instant decision.

As to petitioner's argument that the patent registry bears petitioner's "Swiss" address, petitioner is reminded that the obligation of a registered attorney or agent to notify the Attorney's Roster by letter of any change of his or her address for entry on the register is separate from the obligation to file a notice of change of address filed in individual applications. See MPEP 402.

ALTERNATE VENUE

Petitioner is strongly urged to consider filing a petition stating that the delay was unintentional. Petitioner's attention is directed to 37 CFR 1.137(b) which provides for the revival of an "unintentionally" abandoned application without a showing that the delay in prosecution or in late payment of an issue fee was "unavoidable". An "unintentional" petition under 37 CFR 1.137(b) must be accompanied by the required petition fee and reply.

The filing of a petition under 37 CFR 1.137(b) cannot be intentionally delayed and therefore must be filed promptly. A person seeking revival due to unintentional delay cannot make a statement that the delay was unintentional unless the entire delay, including the delay from the date it was discovered that the application was abandoned until the filing of the petition to revive under 37 CFR 1.137(b), was unintentional. A statement that

the delay was unintentional is not appropriate if petitioner intentionally delayed the filing of a petition for revival under 37 CFR 1.137(b).
